

NATIONAL ASIAN AND PACIFIC ISLANDER HIV/AIDS AWARENESS DAY

POPULATIONS

AAs and NHPs are the largest growing group in the U.S.

311.6 MILLION
People in the U.S.

17.2 MILLION
Asian Americans (AAs)

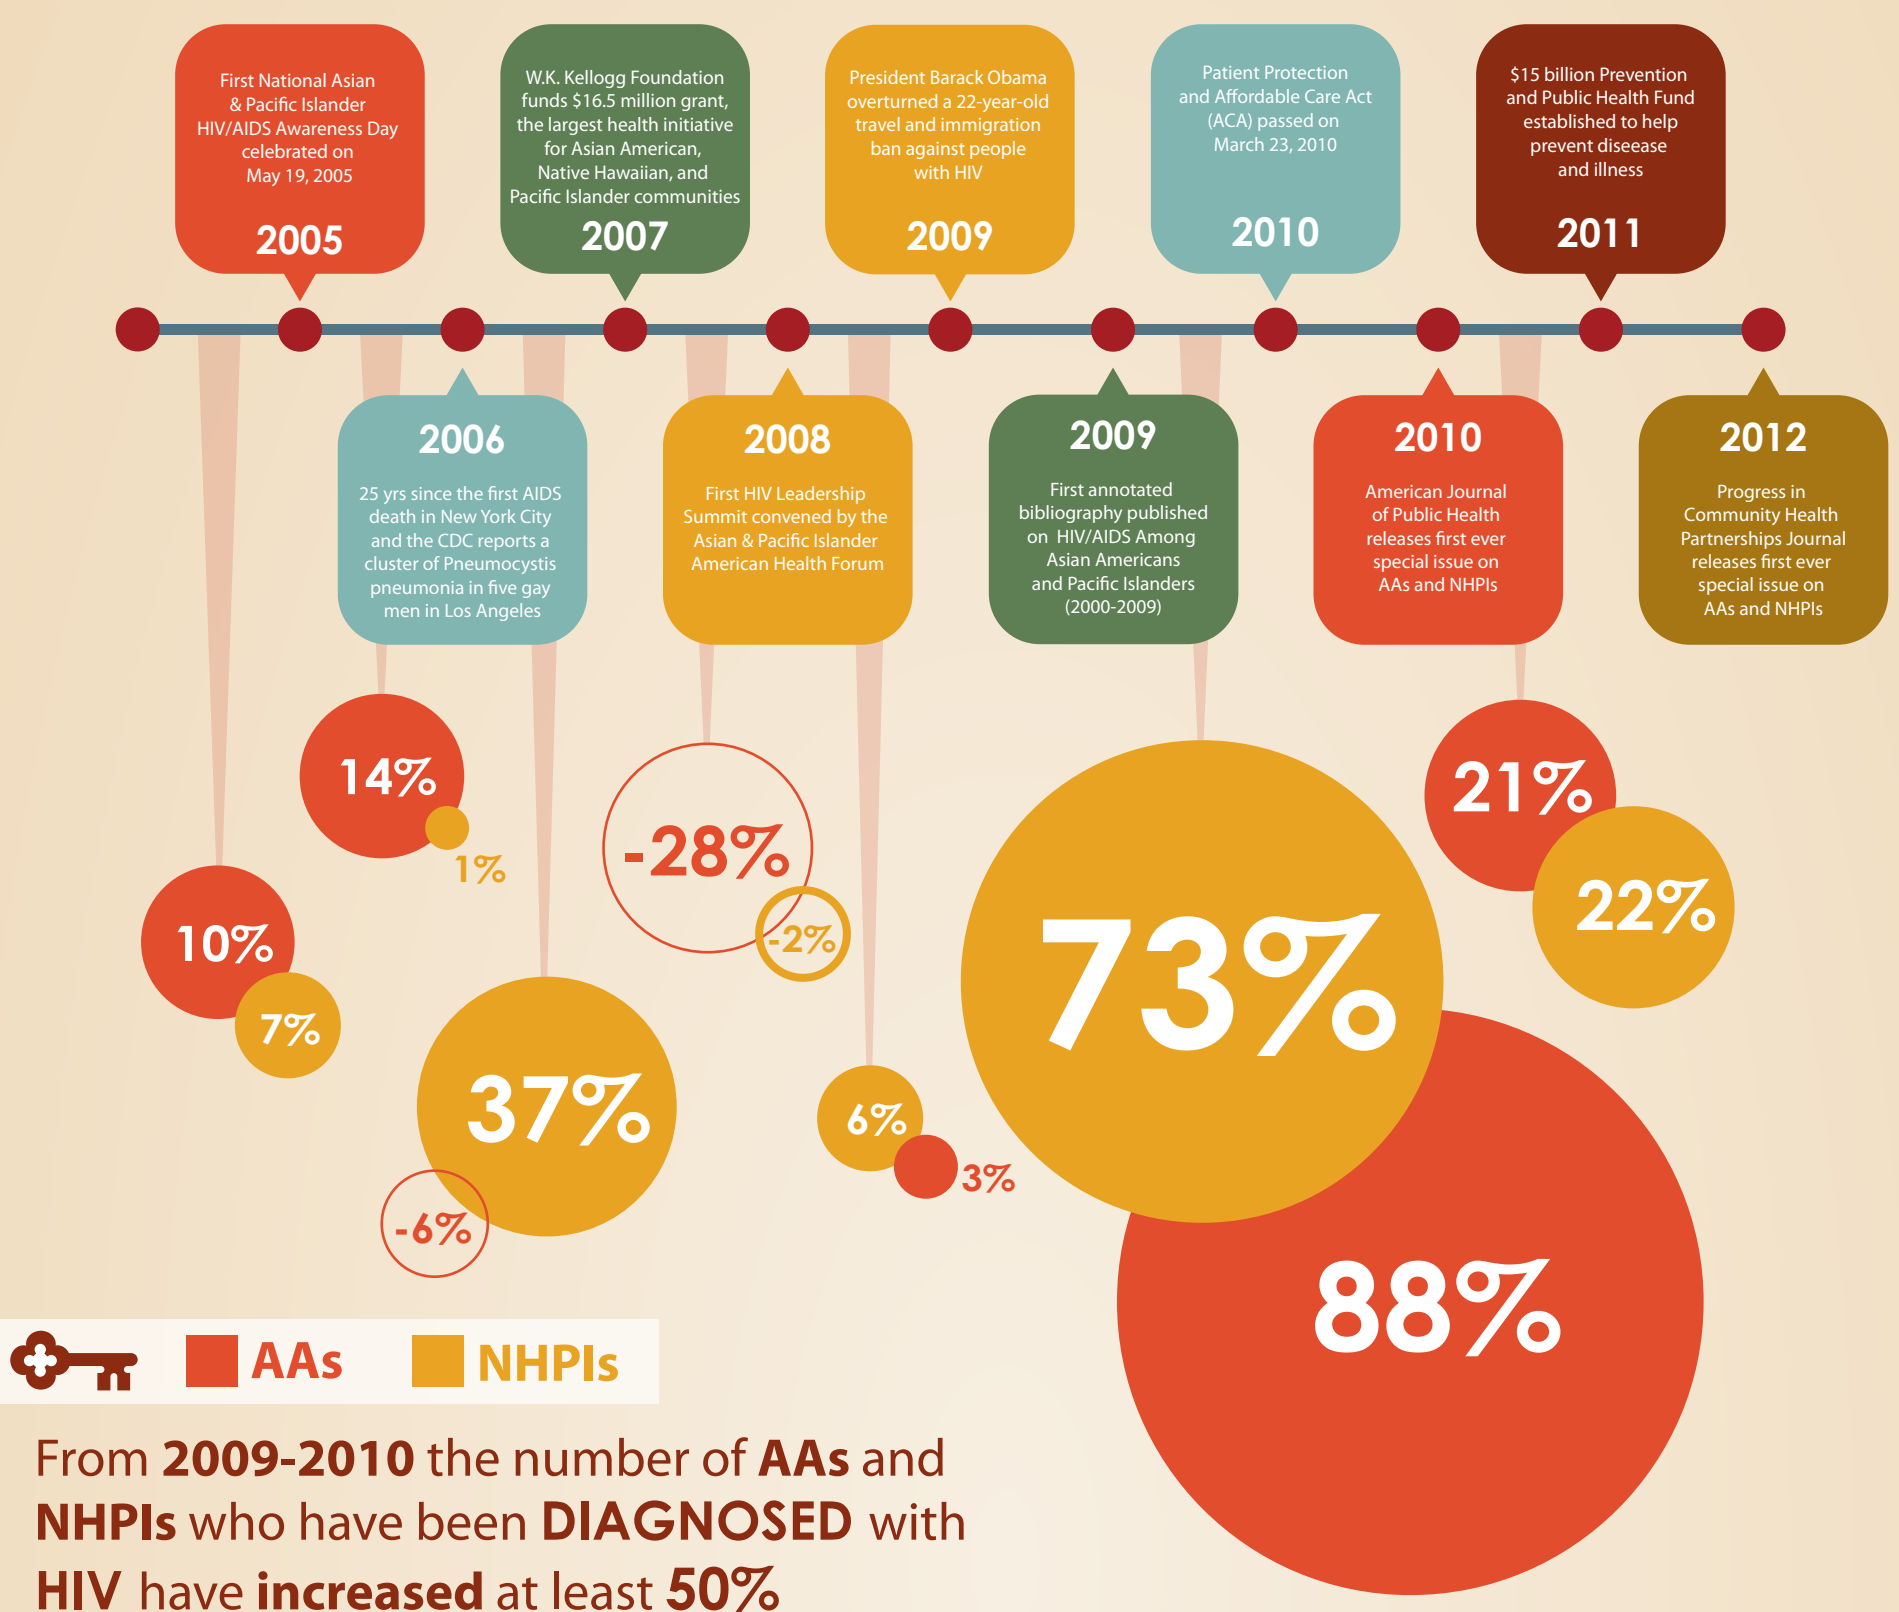

1.1 MILLION
Native Hawaiians & Pacific Islanders (NHPs)

The **AA** population increased **4x** faster than the **total population** and the **NHPI** population increased **3x** faster than the **total population**.

HIV DIAGNOSES

change in HIV diagnoses over the years

From 2004-2011 HIV diagnoses for AAs and NHPs continue to increase year by year, except from 2006-2008 when diagnoses decreased for NHPs. In 2010 the number of diagnoses dramatically increased 73% for AAs and 88% for NHPs from 2009.

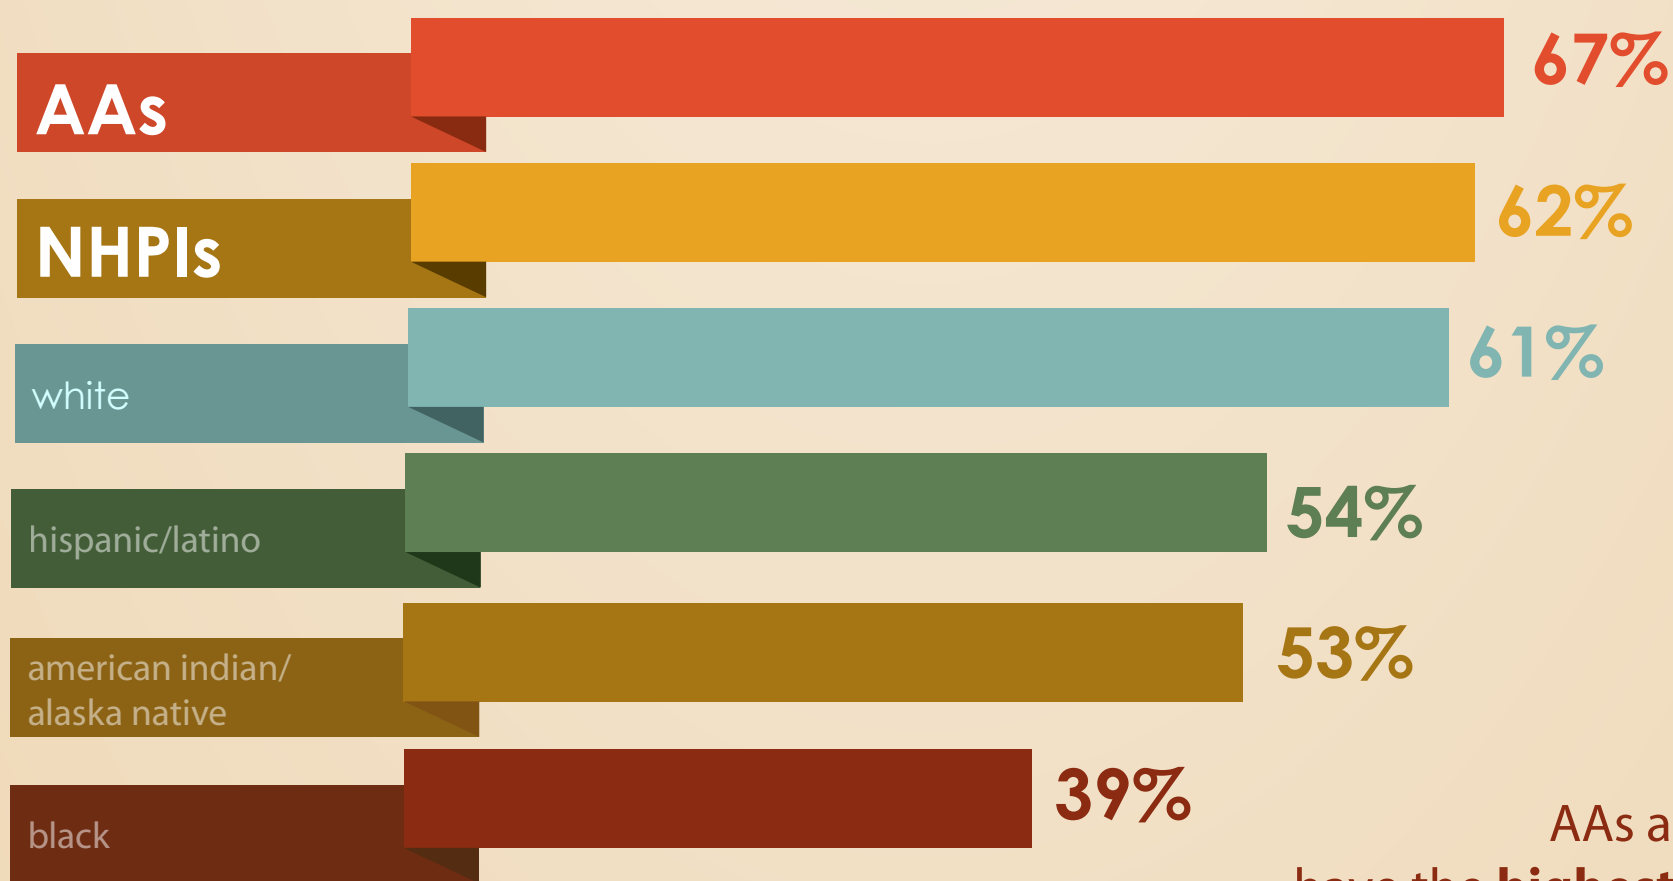

HIV TESTING

the number of people who **DON'T** get tested

6/10
AAs

7/10
NHPs

THE AFFORDABLE CARE ACT

uninsured AAs and NHPs

With the **Affordable Care Act** people living with **HIV/AIDS** can **no longer be denied** or dropped from insurance because of HIV. And insurers can **no longer impose lifetime caps** on insurance benefits.

46M
TOTAL
uninsured

2.3M
